

# GRUNDFOS SERVICE & SOLUTIONS

## WORKSHOP REPAIR

### ANY REPAIR ON ANY PUMP FROM ANY MANUFACTURER

While on-site repairs are fast and efficient, the broader range of options from our network of repair workshops all over the world is sometimes necessary.

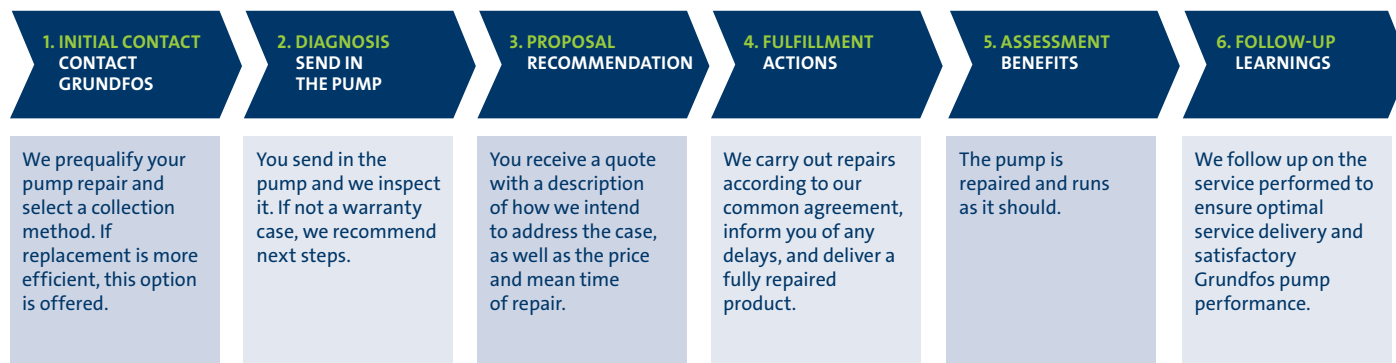

All repair work is at the highest standard of service quality and carried out according to Grundfos specifications using original spare parts. This means the warranty is still valid, and you get a clear overview of the cost of the repair.

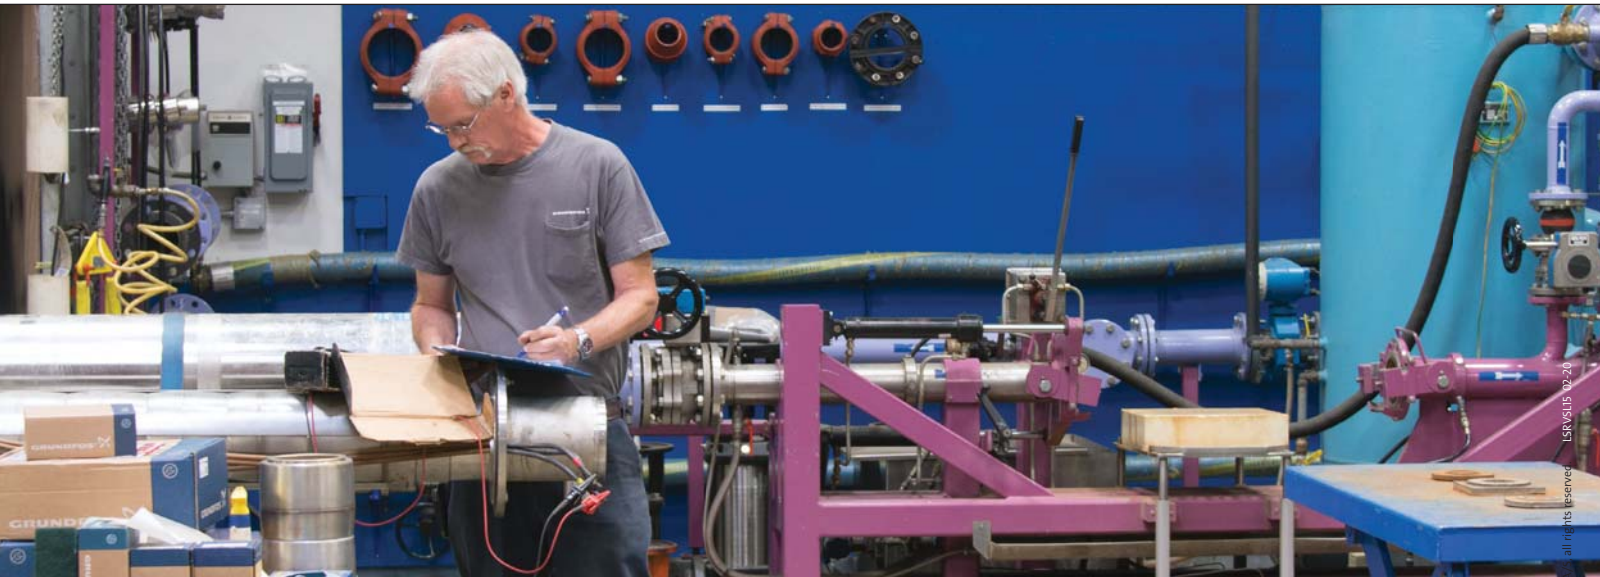

Grundfos Workshop Repair includes services such as full inspection, replacement of all wear parts, and testing after assembly. You get the same high-quality repair for non-Grundfos products as you get for our own pumps. This adds up to a highly flexible, experienced and competent one-stop shop for all your pump repair needs.

### AVAILABLE WORKSHOP REPAIR SERVICES:

- ✓ **Pump repair:** We can repair your pump by fixing a part.
- ✓ **Complete rebuild:** We will disassemble the entire pump and replace all parts to Grundfos specifications using original spare parts.
- ✓ **Pump performance test:** We will test your pump's performance in a Grundfos test lab, provide you with a report, and advise what improvements can be made to help your pump last longer.
- ✓ **Laser alignment:** We will ensure factory-quality specifications before on-site installation.
- ✓ **Many other repair services,** including pump repainting and machining

### GRUNDFOS WORKSHOP REPAIR INVOLVES A FEW SIMPLE STEPS:

**HOW YOU BENEFIT FROM WORKSHOP REPAIR FROM GRUNDFOS:**

- ✓ All repair work carried out according to Grundfos specifications
- ✓ Original Grundfos spare parts used
- ✓ Warranty check
- ✓ Technical advice
- ✓ Service job finalized with a report highlighting all areas covered and providing recommendations

“Our solution-based service engineers fabricated a customized adapter to retrofit an existing guide-rail system. This provided quick turnaround, ease of installations, and cost savings to a municipality in need.”  
— Grundfos Service Coordinator, USA
